

Support ReSound's Campaign to Help America Hear

This Better Hearing & Speech Month (May), ReSound is donating a pair of hearing aids for every additional 10 people to "like" them on Facebook. The donated hearing aids will go to *Help America Hear*, a charity that provides hearing aids to Americans that cannot afford to buy them.

In most states, Medicare and Medicaid do not cover the cost of hearing aids and many insurance providers do not offer full medical coverage. Created by the Foundation for Sight and Sound, the Help America Hear program provides hearing aids to men, women, and children with limited financial resources.

The manufacturer suggested retail cost averages from \$1,500.00 to \$3,000.00 per hearing aid. With this program, each eligible person receives two hearing aids, custom ear molds and one year limited service.

In addition, ReSound is asking audiologists and hearing professionals to share ideas for promoting hearing conservation in their local communities. Simply visit the GN ReSound Facebook page and post your ideas and experiences. With recreational noise and hearing loss being entwined, ReSound is encouraging more education about noise-induced hearing loss at the community level.
