Exhibitors providing demonstrations must provide adequate space and/or seating within their exhibit space in order that the aisles remain clear. Exhibitors may not sell/suitcase or solicit from other exhibitor spaces. **Show Management performs its final inspection of exhibits 2:00 – 3:00 pm Wednesday afternoon prior to the official hall opening. Notices are provided onsite for any exhibits which may need modification.**

BOOTH DISPLAY REGULATIONS

Booth display structures should follow the International Association for Exhibition and Events (IAEE) Guidelines, as well as the Georgia World Congress Center Fire and Safety Guidelines.

Height restrictions are: Linear booth: 8 feet (no hanging signs) / Island booth: 20 feet

Show Management permits only island booths to hang ceiling signs. Signs must be hung at a distance no greater than 20 feet from the floor to the top of the sign. Signs must be professionally designed and not take away from the character of HearTECH Expo. Signs must be hung at a distance of 20 feet from the floor to the top of the hanging sign. The width of the sign must be within one foot of the boundaries at any point of the booth. Hanging signs or exhibit structures cannot extend into any aisles or cross over any aisles into adjoining exhibit spaces.

Linear Booths - Standard linear booth is a minimum of 100 square feet. Each Linear Booth will have a back wall 8 feet high with side wall 3 feet high and an identification sign of 7"x44" (inches). Linear booths must maintain an area in the front 5 feet of the booth in which the display materials do not exceed 4 feet in height. No Linear Booth may exceed the maximum height of 8 feet and no part of any booth, or booth related material, will be permitted to obstruct the aisles in any way.

Island Booths - Island booths may extend to, but may not exceed, a vertical height of 20' feet. Full use of the island space is permitted; however, the design of the booth must allow for reasonable see-through visibility and full accessibility from all sides (floor to ceiling obstruction is not permitted). Island Booths must be open from all sides. Drapery will not be provided. The design of all multi-level booths and structures must be forwarded to the Academy for approval. Any exhibit structure that does not comply with the Booth Display Guidelines will be made to adjust that particular problem at the expense of the exhibitor. If unable to comply, the Academy reserves the right to relocate that exhibit to another space at the exhibitor's expense.

For **multi-story booths**, the exhibiting company must have their floor plans approved by Show Management 60 days PRIOR to set up. Show Management must have a copy of the approved design on file. Booths with covered spaces of 300' or more are required to have a smoke detector and a fire extinguisher. For more information on Fire Marshall requirements, please contact Fern.

Employees of Fern are paid at an excellent wage scale denoting a professional status, and they feel that tipping is not necessary. This applies to all Fern Exposition Services' employees.

In General - Craftsmen at all levels are instructed to refrain from expressing any grievances or directly challenging the practices of any exhibitor. All questions originated by labor are to be expressed to Fern Exposition Services management personnel.

EXHIBITOR HOSPITALITY, MEETING, PARTIES AND SPECIAL EVENTS

All related events within the convention center and contracted hotels must be approved through the Academy. Suites may be available for lodging or hospitality events only and may not be used for exhibit space or product demonstration. Violations will result in the assessment fee equal to the cost of a booth, and company will be restricted from attending or exhibiting in the future. Exhibitor will also be liable for any fees or penalties imposed by the hotel or convention center related to violations of any kind. EACs and I&D personnel may pick up their daily sticker at the EAC/I&D counter located at the Fern Service Desk.

FDA

Exhibitors are responsible for adhering to all established Food and Drug Administration guidelines for exhibiting products that are FDA approved and those that may be pending FDA approval. The Academy assumes no responsibility to obtain FDA approval. In accordance with this policy, if non-FDA approved products or services, which required FDA approval, are exhibited, the Academy may deny installation privileges, or require removal, of the exhibit or discontinuance of any promotion, wholly or in part. Should the Academy deny installation or require removal of any product or service, the Academy will not incur liability and the exhibitor will not be entitled to any refund. Presentations, live performances, slides or movies will be permitted if volume is kept at conversational levels and if not objectionable to other exhibitors. Music, videos, and presentations containing explicit or vulgar language or acts are strictly prohibited. All presentations must not carry beyond the immediate area of display. Exhibitors may use sound equipment in their booth so long as the noise level does not disturb the activities of neighboring exhibitors. All speakers and other sound devices should be positioned so as to direct sound into the booth rather than into the aisle. Exhibitors operating sound producing equipment must keep the volume to a reasonable level (70dB) in order not to disturb neighboring exhibitors. See also Video/Music use section.

Exhibit materials must be covered from the time your exhibit shipment leaves your facility, during installation, show days, dismantling and until all materials have been returned to point-of-origin. Coverage against damage and loss, and public liability insurance against injury to a person and property are required. Exhibitor is financially responsible for any/all insurance coverage for their property and personnel. Each exhibiting company must carry its own insurance. Coverage must be a minimum of \$1,000,000, including installation and dismantling days, per claim, per occurrence, for the duration of HearTECH Expo. Certificates should list the following as additionally insured: American Academy of Audiology, Georgia World Congress Center. LEAD-ONLY EXPOSITION / SELLING POLICY

HearTECH Expo is a lead-only show. The Academy advises against direct selling of merchandise. Order taking is the preferred method. Should you sell on the show floor, products for sale must be related to the field of Audiology and cash transactions are discouraged. It is the exhibitor's responsibility to acquire the necessary licenses/permits from the local government.

LEAD RETRIEVAL EQUIPMENT

To obtain names and addresses of attendees requesting your literature or information, exhibitors may rent lead retrieval equipment from Maritz Global. The order forms are included in the Official Contractors section of the OneView Exhibitor Marketplace <https://www.fernoneview.com>.

All labor needs are at the expense of the exhibitor, as is the request for lighting adjustments. Truss or mounting mechanisms must be clear of any company logo.

MAIL & PACKAGES

For security reasons, all mail or small packages must be sent to your hotel. Neither Show Management, official contractors nor Convention Center staff will sign for exhibitor packages. Should you need a large parcel shipped for exhibiting purposes to the Convention Center, coordinate with Fern. Small packages shipped to the Convention Center will incur a freight/drayage fee in order for that item to be delivered to your exhibit space (this is in addition to your shipping rate).

Should you require 24-hour security or your I&D/EAC need additional time after the event closes – you are required to hire overnight security service for your exhibit space. See Security Request form and safety tips in the Official Contractors section of the OneView Exhibitor Marketplace <https://www.fernoneview.com>. The Academy assumes no responsibility or liability for any of the services performed or materials delivered by a contractor or for exhibitor products lost, stolen or damaged.

SELLING POLICY

The Academy recommends that Exhibitors only take orders during show hours. The actual sale of any merchandise is strongly discouraged. If an Exhibitor chooses to make sales, it is the sole responsibility of the Exhibitor to obtain all required permits relating to the sale, report appropriate information to the state's tax officials, complete the appropriate tax return and provide a check in the amount of all sales tax due to the state. In addition, you must have a current seller's license or permit to engage in sales from the exhibit floor, as sales without such license or permit ARE PROHIBITED by the Academy. Exhibitors wishing to conduct cash and /or credit card sales must provide Show Management with a copy of the seller's permit (30) thirty days PRIOR to exhibitor setup. Exhibitors found selling on the show floor without a seller's permit will be required to immediately cease and desist from making sales and will be held liable for all attorney fees, and tax liability relating to the sale(s) and also for any and all expenses incurred by the Academy that relate to the sale(s).

SIGNS & GRAPHICS

Placement and display of all signs and banners must be confined to the assigned booth space. The placement of signs and banners will not be permitted within the convention facilities or the entrances to those facilities unless approved as an Academy sponsorship. Fern will provide all standard booths with a 7" x 44" identification sign with booth number and company name only. Additional signage may be ordered from Fern using the form in the Fern section. Sign orders placed onsite are priced higher than the advanced listed price. Hanging signs and graphics are only permitted in island booths. Signs must be hung at a distance of 20 feet from the floor to the top of the sign or exhibit structure. The width of the sign must be kept within 1 foot of the boundaries at any point of the booth.

SOUND LEVELS

In order to provide a level playing field and to minimize the noise pollution, the Academy has established a maximum sound level of 70dB. Be kind to your neighbor as all air space is shared. All speakers and other sound devices should be positioned to direct sound into your booth rather than into the aisle. A sound check will be performed each day of the event. Sound from audio-visual displays must not exceed 70dB.
